PROFILE

I am a passionate user experience designer with over 1+ years of experience in user research, wireframing and prototyping. I have a track record of excellence, quality and simplicity with an indepth focus on user research.

EMPLOYMENT HISTORY

UX Designer | Junior in Management, Softcity Group - http://softcitygroup.com   Victoria Island
Jan 2019 – Present

 I report directly to the CEO, as part of management, my duty is to co-ordinate the SCRUM activities of the technical team. I make sure they stay on course for every project being developed. Also, I write proposals and follow up on clients to ensure they trust our work ethics and then work with us.
Also, I represent the company in some meetings, as requested by the CEO, follow up on job recruitments and keep track on those that fit more with the company's goals and vision.
Moreso, since we are a startup, I support in design at the early stage of projects where necessary.

Junior Software Engineer (Trainee), Decagon Institute - http://www.decagon.institute/   Illupeju,Lagos
Apr 2019 – Apr 2019

 I underwent a Software Engineering Training in Full-Stack engineering, the front-end part. My duties were to report to the institute and learn based on the provisions provided. It was a training to be a topnotch Software Engineer.
Reason for Leaving: The training had been completed and a new opportunity opened up.

Front-end Designer / Digital Advertiser, Our Story Your Story (OSYS)   Co-creation Hub, Yaba, Lagos
Aug 2019 – Nov 2019

 After becoming the winning team and playing the role of developing the prototype which we pitched to win a seed investment to subvert the tendencies for young minds in the Northern and Eastern regions of Nigeria to be enlisted as insurgent propagators or tools for havoc. My role will be to see to the execution of our technical solution, the development actually.

 Reason for Leaving: We all had a different engagement and couldn't sustain our monthly reports for funding to be processed.

Data Analyst, Microsoft4Afrika / Snapnet Limited   Lekki Phase 1, Lagos
Feb 2019 – Jul 2019

 I was part of the Data Analysis Team and my duties were to create eye catching and aesthetically friendly dashboards and reports as well as manage small, medium and large sized data on cloud. Migrate on-premises data to the cloud as well. I left because it was a contract role for 6 Months.
Reason for Leaving: I was more passionate for a different role.

National Youth Service Corps, Niger State Logistics Management and Co-ordination Unit (LMCU)/ Technology Hub   TIC Building Off David Mark Road, Minna, Niger State
Mar 2019 – Jan 2019

 I was assigned to the Technology Incubation Hub as a Corp member in Niger State, but my disinterest for lazy work made me offer my technical services for free to the NGO. I helped in providing real-time IT services both hardware consultation and software training and consultation. I left because my NYSC Campaign was over.
Reason for Leaving: My Service period was over and done.

EDUCATION

University of Uyo, B.Eng (Hons) Computer Engineering   Uyo
Nov 2011 – Apr 2019

I graduated with a second class upper with a cumulative grade point average of 4.00 out of the available 5.00.

Asides my result, I was directly and indirectly involved in leadership positions with the most relevant being in my final year where I was elected president of my department. One notable achievement was leading my department to winning the intra-state innovation exposition competition and also bringing the commissioner of science and technology to be a part of a student, lecturer and head of department and faculty interactive session.

COURSES

Global Citizenship Education, gced online campus
Mar 2019 – Mar 2019

Big Data Engineering, Microsoft
Feb 2018 – Jul 2019

Digital Skills for Africa, Google Digital Garage
Aug 2016 – Sep 2019

EXTRA-CURRICULAR ACTIVITIES

HNG remote internship, Hotels.ng   Slack channel remotely
Apr 2019 – Present

We work from our houses or wherever we find convenient and complete tasks on slack as teams for a cash prize every week for 3 months. We began as over 2000 participants with complementary skills. Non-active members get dropped along the way while active ones are grouped into teams to compete against other teams. Winner of a development task takes all the available cash prize. I'm in as a designer and I work in the designer sub-team within my team and I also work in the general designer track to improve my skills via feedback.
